

We notice that our good friend Lee B. Walton, of Henry, has announced himself for sheriff of Henry county. Lee is a fine fellow and would make a tip top officer of the peace.

People are taking the garden fever and some few have ventured out in that line. The truck grower as well as the farmer, feels that he is very much behind. And he is, but he is not alone.

That Gibson county solon who opposed a bond issue for the purpose of raising funds to build good roads, indulged in characteristic rhetoric. He declared with great dramatic force that he was opposed to voting bonds to be paid for by his future "ancestry." His logic was in keeping with his lingo.

—News Scimitar.

Those members of the county court who voted to rescind the former action of that body in appropriating \$500 to advance the agricultural interest of the county fair are being severely criticised by the friends of the fair. Some people may claim the fair is of no value, the large attendance is evidence of its worth and high appreciation of the people.

Among the great industries of the United States, printing now ranks sixth in importance, it having advanced from the seventh place since the census of 1900 was taken. The industries rank as follows: Packing, foundry and machine, lumber, iron, flour, printing. The annual output of printing is valued at about \$737,000,000, an increase of thirty-three and one-third per cent over the output given in the last preceding report.

—Exchange.

Memphis, at last, has a magnificent union depot. It has recently been completed at a cost of over \$3,000,000 and it is a fine structure. The five roads, which will make joint use of the new depot, are the Southern railway, the Louisville & Nashville, the Nashville, Chattanooga & St. Louis, the Iron Mountain and the Cotton Belt. Memphis has long been in need of a new depot and the city and the traveling public are to be congratulated.

The Gibson county court, at its meeting last week, refused to submit a proposition to the people to vote on the issuance of bonds for road purposes. The majority against this progressive step was small and it is safe to say that by proper efforts along educational lines the people of that well-to-do county will soon see the mistake the court made and will have the court submit the question to a vote of the people. Anything that means more taxes, however beneficial it may be, fails to appeal with any degree of favor, to some people. And as a rule the smaller the tax-payer the bigger the kick.

As the trial of the Standard Oil Company and the meat packers resulted in such a farce it seems that it would be good policy for the government to quit "trust busting" for a season. As soon as the trials were over Standard Oil stock went sky high and the packers raised the price of their products. Unless there is a more effective way of getting next to these trusts they had better be left alone.—Lexington Republican.

Lawlessness in high places is the bane of this country. The lawless have gone unpunished until they think they are immune from the heavy hand of the law. What we need are laws that will reach this class and then administrators of those laws with backbone sufficient to enforce them.

HARMONY.

In spite of a stubborn fight that was made, a majority of the members of the regular democratic committee signed an agreement to meet with a majority of the members of the other committee and take such action as will bring about a re-united democracy in Tennessee.

The so-called editors' plan was one of half dozen ways for making peace. Under this plan a convention can be held, at which delegates can be sent to Baltimore and which can select electors.

At this convention a new committee will be appointed, and this committee will be the selection of the people themselves.

Then this committee can go along with the work of ordering a primary or a convention wherein state officers can be nominated.

We have had our fill of personal politics in Tennessee. We have seen the folly of factionalism.

A republican governor now has it within his power to send a republican to the senate of the United States. The state of Tennessee is now ruled by a minority party.

If we get together and elect a democratic ticket, then we can go forward with necessary reforms in Tennessee that will place the state in the leaders of the nation.—Appeal.

EDUCATIONAL BOARD MEETS

Two Days Session in Interest of Schools.

The Carroll County Board of Education was in session at the office of Superintendent D. T. Barnhill, at the courthouse last Friday and Saturday. Many questions of interest came before the board for consideration. All the members were present except Tyler Cox, who is attending a medical college at Nashville.

The school patrons in the community of Sid Olive, in the Thirtieth district, have for some time been trying to get a new school house and a school established there. It is an isolated place, being quite a distance to any school, which was working a hardship on the children of that community. The board agreed to give \$150 towards erecting a new house if the citizens would do the rest. This they will do and a new house will be ready for the next school.

The school at Cedar Grove, in the Sixth district, and at House, in the Twenty-first district, have heretofore been secondary schools with two teachers at each place. The board decided to designate them in the future as weak secondary schools and furnish them with only one teacher each.

The schools at the Simmons house and at the Carnes house, in the Tenth district, were consolidated. The consolidated school will be located between the two on a site agreed to by the patrons of the two schools. A new house will be erected. A committee composed of D. N. Ware, F. P. Compton and J. M. Brewer was appointed to sell the Simmons house and site and to solicit funds and labor for the erection of the new house.

The board, at a former meeting, decided to have no summer schools. But there are some communities that want a summer school, and to meet this demand the board makes the following proposition: In those communities desiring a summer school, if the patrons will pay the teacher for one month by private means the board will pay for one month, making a two months school, but this one month will be taken from the winter term, making the winter school one month shorter.

The citizens of Hollow Rock are anxious to advance their school interest and are planning the erection of a new brick school building. At a mass meeting held last Friday night a committee of leading citizens of that town was appointed to appear before the county board of education and solicit the help of the board in carrying out their plans. Saturday A. Nunnally, F. A. Penick, Dr. L. L. Duncan, Priest Kyle, I. R. Williams and perhaps others came to Huntingdon and took the matter up with the board. The gentlemen were given an interested and kindly hearing and a committee was appointed to visit Hollow Rock on Monday and go over the situation with the citizens.

Last Monday Superintendent Barnhill and Mr. Whitehorn visited Hollow Rock. They found the people thoroughly aroused on the subject of a new building and something over \$2,500 of the money in sight. Just what the report of this committee will be and the amount the board will feel able to give towards the erection of the building will be determined later.

The board is called upon to do many things they would like to do if they were not handicapped by lack of funds. The total school fund for the county is only \$3.50 per student, and with this the board is expected to run a five months school, build school houses, furnish fuel, equip the school building and meet incidental expenses. If patrons would realize that the \$3.50 would hardly pay a month's tuition, if their children had to be sent off to the colleges, they would appreciate more what the rural school is doing for them.

Try a 50c. bottle of "Germol" and make life worth living.

Sale of Land.

Blaine Morgan, by next friend, vs.

Minnie Bell Morgan, et als.

In County Court of Carroll County, Tenn.

Pursuant to a decree of sale pronounced in said cause, I will on Saturday, May 4, 1912, within lawful hours, at the east door of the court house, in Huntingdon, expose to public sale, to the highest bidder, for cash, the lands described in the pleadings and decrees in said cause, being a 34 1-4 acre tract owned by F. G. Morgan at his death, and situated in the Eleventh civil district of Carroll county, subject to the homestead right of Mrs. S. G. A. Morgan therein. Full description given on day of sale.

This April 10, 1912.

J. W. WILLIAMS, Clerk.

J. W. Murphy, Solicitor for Complainant. 15-4t

One way to relieve habitual constipation is to take regularly a mild laxative. Doan's Regulenes are recommended for this purpose. 25c. a box at all drug stores.

Will Probated.

The will of the late M. D. Carnal was filed for probate in the county court clerk's office last Monday. W. J. Brecheen and Billie Carnal were named as joint executors of the will, but Mr. Carnal declined to qualify and Mr. Brecheen made bond in the sum of \$20,000 and otherwise qualified for the position. The following parties were here from Clarksburg to assist in probating the will, executing bond, etc.: W. J. Brecheen, Tom H. Jamison, S. J. Belaw, Jim Brecheen, Billie Carnal, J. E. Carnal and Misses Sudie and Sallie Carnal. Mr. Carnal left his property to be divided equally among his children.

Mrs. T. C. Boone and daughter, Miss Martha, of Bradford, are visiting the family of W. F. Jones.

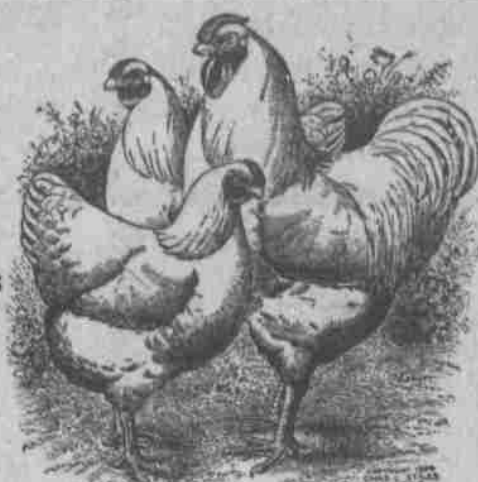

HENS = WANTED!

I WILL PAY

11c

per pound for hens
clear of feed delivered at

Hollow Rock,

MONDAY, APRIL 15.

You had better sell now while prices are up as the may be lower soon.
